Experience

CO-FOUNDER, MCCARREN AI | FEBRUARY 2024 – PRESENT

- Building AI software for government contractors focused on opportunity discovery, proposal generation, and document automation.
- Built Doco, an AI-native Microsoft Word add-in used by 3,000+ users for drafting and editing complex proposals and documents.
- Led GTM strategy across outbound sales, partnerships, and in-person industry events.
- Closed enterprise contracts averaging ~\$45K ACV and SMB contracts averaging ~\$12K ACV.
- Designed and shipped AI workflows for RFP response generation, retrieval-augmented document search, and proposal automation.

TECHNICAL ADVISOR, FLYWHEEL DIGITAL | FEBRUARY 2022 – JANUARY 2024

- Worked directly under Patrick Miller, Co-Founder & President of Flywheel Digital, as Technical Advisor.
- Spent time with enterprise customers to drive adoption of our AI products and identify opportunities to automate.
- Managed a team of 5 research engineers building early-stage AI products such as AI tooling for Amazon product content creation.
- Supported Omnicom's Strategy team on M&A by evaluating their technical capabilities, AI infra and product positioning for acquisition targets.

SR DATA SCIENTIST, FLYWHEEL DIGITAL | AUGUST 2020 – JANUARY 2022

- 2021 Innovator of The Year.
- Built Python pipelines to collect, aggregate and visualize large scale datasets using distributed compute on Databricks and AWS SageMaker GPU clusters.
- Developed sequential neural network models to forecast sales demand for multi-million-dollar manufactures on Amazon.
- Managed the entire life cycle of projects starting with building requirements, collecting and cleaning data, training and testing models, performing quality assurance, and effectively communicating the findings.

BUSINESS DEVELOPMENT ANALYST, FLYWHEEL DIGITAL | JANUARY 2019 – JULY 2020

- Worked directly with customers to develop reporting and insights driving growth for the world's largest Ecommerce Brands. Developed and presented pitch decks for prospects in pipeline.
- Built sales forecast and financial models for leadership to support strategic business decisions.

ANALYST/ INTERN AT FLYWHEEL DIGITAL | SUMMER 2016 & 2017

- Early employee (#6) at Flywheel Digital prior to its growth to 2,000+ employees and \$835M acquisition by Omnicom.

Education

MS, ARTIFICIAL INTELLIGENCE – JOHNS HOPKINS UNIVERSITY | 2020-2023

- Research Contribution, JHU Department of Neurology. Trained CNNs with eye tracking data to predict and detect neurological disease.
- Focus areas included deep learning, NLP, distributed systems, GPU programming and AI system design.

BS, MATHEMATICS - COLLEGE OF CHARLESTON | CLASS OF 2018

- Developed software using athlete historic data to predict outcomes of Mixed Martial Arts bouts.
- Studied Jazz Guitar
